BAGNOLE - THE BRUSSELS TASTE - NEWS & MENU

BIG IN JAPAN.

Great news for all lovers of Japanese cars and culture...

This summer, Autoworld invites you to immerse yourself in a universe where tradition, innovation, and mechanical exuberance come together.

From 3 July to 31 August, discover Big in Japan at Autoworld – a spectacular exhibition celebrating the rich heritage of Japan's automotive and motorcycle industries, brought to life through a captivating scenography inspired by the Land of the Rising Sun.

Wander through atmospheric scenes drawn from Japanese life – from vibrant cityscapes to tranquil temple gardens – all while surrounded by the spirit of Japan.

Historic Icons & Supercars

Discover the cars that have defined generations: the Mazda Cosmo, the pre-production Maz-

da MX-5, the Toyota 2000 GT & Spider, Toyota Celica, and Toyota Supra. True symbols of reliability and driving pleasure, these vehicles have become genuine legends.

Marvel up close at rare and powerful machines such as the Toyota GT-One, Honda NSX, and many more breathtaking mechanical surprises.

Japanese Motorsport

Step into the paddocks of Japan's legendary circuits – Fuji and Suzuka – with tributes to rally, endurance, Super GT, and drift racing. Iconic race cars bring the adrenaline of Japanese motorsport to life.

Centre stage is the exceptional Mazda 787B (Le Mans winner, 1991), alongside the Toyota 94C-V

(1994) and Carlos Sainz's Toyota Corolla WRC.

The Spectacular Evolution of Japanese Superbikes
Japanese passion goes beyond cars. Big in Japan also honours the titans of the motorbike world. From the iconic Honda CB750 to modern marvels like the Yamaha R1 and Suzuki Hayabusa, discover how Japanese manufacturers revolutionised sport bikes and competition.

From vintage models to cutting-edge superbikes, this section takes you on a journey through 50 years of speed, style, and innovation.
